What Is 4Life Transfer Factor Plus Tri-Factor Formula?

Recent independent laboratory studies show that core 4Life Transfer Factor products bolster NK cell activity in the presence of a health threat, while activating a variety of other immune system cells, such as: B cells, T cells, and macrophages.† Representing the most advanced discoveries in 4Life Transfer Factor Science, it combines the power of Tri-Factor Formula (UltraFactor, OvoFactor, and NanoFactor extracts) with a proprietary Cordyvant blend to support a healthy immune system and provide a host of other phytonutrient benefits. The messenger molecules found in 4Life Transfer Factor Plus Tri-Factor Formula help educate immune cells and support the immune system's ability to more effectively recognize, respond to, and remember potential health threats. This complete formula promotes immune system function to help maintain optimal health, energy, and everyday quality of life.*

At 4Life, we certify all 4Life Transfer Factor products. We pledge to uphold the highest standards of product design and manufacturing for every product we sell. We strive to create products of the utmost quality and efficacy. When you purchase 4Life Transfer Factor products, you can rest assured that you're getting the very best. In fact, we guarantee it.
