

ChitoLite®

Fat-binding formula that features chitosan*

- Supports weight management by binding fat through the power of chitosan
- Features l-ascorbic acid, erythorbic acid, and aloe vera
- Incorporates patented technology to maximize the fat-binding ability of standard chitosan

What is ChitoLite?

ChitoLite is formulated using chitosan, one of the most unique and effective ingredients known to help support successful weight management. Chitosan is a naturally occurring substance that chemically binds to the plant fiber cellulose. Chitosan chemically binds fats and has the ability to significantly prevent fat in the digestive tract from being absorbed.

Primary Support:

Weight Management

DIRECTIONS: Take two (2) capsules with 8 oz of fluid before each meal.

| Supplement Facts | | |
