- Atomizes essential oil molecules into your environment so you can enjoy their life-enhancing benefits
- Has multiple light and diffusion settings to suit your preference and holds up to 300 ml of cool water
- Provides an ultra-fine mist diffusion of the essential oils of your choice

---

## What is the 4Life Essential Oils Ultrasonic Diffuser?

This high-quality, easy-to-use diffuser is the perfect accessory to enjoy aromatherapy in your home, workspace, or anywhere! LED lighting in six rotating colors brightens and beautifies your experience. The diffuser creates an ultra-fine, chemical-free, and heat-free mist that protects the integrity of essential oils and atomizes essential oil molecules into your environment.

## Recommended uses

Add 10–15 drops of 4Life Essential Oils to cool water in the diffuser's full chamber. Adjust the settings, and you're ready to diffuse.

## Did you know?

Pure essential oils provide pleasant scents and other beneficial properties that come from 100% natural components. Common air fresheners and body sprays often contain synthetic fragrance components that can elicit certain side effects in some people.
