Rich formula to deeply nourish and moisturize skin

- Moisturizes skin's surface, especially areas that need extra attention
- Deeply conditions and illuminates the full-body complexion
- Bolsters skin's surface against changes in the climate
- Offers a paraben-free formula

What Is enummi® Spa Body Butter?

enummi Spa Body Butter is a rich formula that glides along the skin to deeply nourish and moisturize. It features nature's most diligent oils and butters, plus aloe and vitamin E to moisturize skin so it is luscious.

Key Features

- Offers a delicate and fresh fragrance to easily complement any 4Life® Essential Oil
- Provides a lavish formula that leaves skin feeling silky soft and smooth without lingering greasiness

Key Ingredients

- **Safflower oil** acts as a protective barrier to prevent water from leaving your skin. It is used as a deep moisturizer, enabling the skin to gain a healthy glow. It helps maintain skin elasticity by allowing the skin to retain moisture. And, it helps reduce the appearance of wrinkles by smoothing and hydrating the skin.
- **Shea butter** contains high amounts of antioxidants and vitamins A, E, and F. Vitamins A and E stimulate and regenerate skin cells, providing skin rejuvenation benefits. Shea butter penetrates deeply into the skin and works to nourish dry, cracked, and sun-damaged skin.
- **Cocoa seed butter** contains many different antioxidants, which work against the free radicals that can destroy skin cells. There are also a large proportion of minerals, including calcium, potassium, magnesium, zinc, manganese, copper, and iron. It also works to make skin feel soft and supple.
- **Macadamia oil** is high in monounsaturated fatty acids, including oleic acid (omega 9), which moisturize, rejuvenate, and soften the skin. Omega 6 linoleic acid helps to restore the skin's barrier function and reduce water loss.
- **Argan oil** is rich in essential fatty acids, vitamin E, and other vital nutrients. It helps to nourish skin and reduces the appearance of fine lines and wrinkles.

DIRECTIONS: Apply liberally all over the body, focusing on elbows, knees, or any area that needs extra moisture and conditioning.
