The Immune System Company™

In 1998, Founders David and Bianca Lisonbee embarked on a journey to bring phenomenal 4Life Transfer Factor® products to the world. Unlike common supplements you find in health food stores, transfer factors aren't vitamins, minerals, or herbs. Instead, they're messenger molecules that transfer memory and knowledge from one entity to another.*

The introduction of 4Life Transfer Factor opened the door for further research, patented techniques, and a new category of products that support health in a different way. Our in-house Research and Development team and Health Sciences Advisory Board (HSAB), comprised of scientists and medical professionals, continually raise the standard for modern-day supplementation and ensure the cutting-edge quality of our products.*

Because of our deep commitment to quality, excellence, and scientific innovation, we certify every 4Life Transfer Factor product we sell. In our state-of-the-art, million-dollar testing lab, we conduct at least 20 tests per product to ensure identity, purity, strength, and composition. Many products undergo additional, rigorous quality-assurance tests before being released for distribution.

Our products are the foundation and heart of our business. We strive to create products that meet and exceed the highest standards, so you can feel confident incorporating them into your health routine and sharing them with your friends and loved ones.

Transfer factors are messenger molecules that transfer immune system information from one source to another.*

WEIGHT MANAGEMENT

NutraStart Vanilla	28
4Life Transfer Factor GluCoach	21

A man with short dark hair and a beard, wearing sunglasses, a light blue button-down shirt over a white t-shirt, and dark shorts, is riding a bicycle on a sandy beach. He is smiling and looking towards the right. The background shows the ocean with waves and a bright sunset sky with a large sun flare. The overall mood is positive and active.

THIS IS YOUR MOMENT.
CHANGE YOUR LIFE
FOR THE BETTER.

Six Steps For Your Wellness Journey

1. EAT RIGHT AND TAKE SUPPLEMENTS

The foundation to wellness is a healthy diet and quality supplements. Get plenty of protein, fruits, and vegetables to enjoy healthy energy levels and a vibrant immune system.

Possible 4Life solutions:

Take 4Life Transfer Factor core products!*

2. LOVE YOUR GUTS

Gut health impacts many different areas of health, including the immune system, weight, cognition, and mood. Love your guts by consuming a plant-based diet, drinking plenty of water, and limiting your dairy intake.

Possible 4Life solutions:

Pre/o Biotics has five strains of probiotics, three types of prebiotics, and the power of 4Life Transfer Factor.

3. GET MOVING

Exercise can impact your physical and emotional health in big ways. Pump it up to build muscle strength and elevate your heart rate to keep your body strong.

Possible 4Life solutions:

Energy Go Stix provides a great burst of energy!*

4. TAKE CARE OF YOU

Before you can care for anyone else, you have to take care of yourself! Take time to step away from the daily stressors of life so you can better handle everything thrown your way.

5. GET PLENTY OF SLEEP

When you feel rested and relaxed, all your body systems are more balanced. When you budget enough time for sleep and use strategies to eliminate stress, your body and mind will benefit.

6. MAINTAIN STRONG RELATIONSHIPS

Having strong relationships with the ones you love ensures that you have a good support system in place.

A romantic couple is silhouetted against a vibrant sunset over the ocean. The man stands with his back to the camera, and the woman is embracing him from behind. The sky is filled with warm, golden light, and the water reflects the colors of the setting sun. The overall mood is peaceful and intimate.

Balance Is the
Ultimate Goal.
