

PRODUCT GUIDE

THE IMMUNE SYSTEM COMPANY™

In 1998, Founders David and Bianca Lisonbee embarked on a journey to bring phenomenal 4Life Transfer Factor® products to the world. Unlike common supplements you find in health food stores, transfer factors aren't vitamins, minerals, or herbs. Instead, they're tiny messenger molecules composed of amino acids, that help health.

The introduction of 4Life Transfer Factor opened the door for further research, patented techniques, and a new category of wellness products that support health in a different way. Our in-house Research and Development team and Health Sciences Advisory Board (HSAB), comprised of nutritionists and medical professionals, continually raise the standard for modern-day supplementation and ensure the cutting-edge quality of our products.

Because of our deep commitment to quality, excellence, and scientific innovation, we certify every 4Life Transfer Factor® product we sell. In our state-of-the-art quality control lab, we conduct hundreds of tests on each product to ensure its identity, purity, strength, and composition. Many products undergo additional, rigorous quality-assurance tests before being released for distribution.

Our products are the foundation and heart of our business. We strive to create products that meet and exceed the highest standards, so you can feel confident incorporating them into your health routine and sharing them with your friends and loved ones.

Pada tahun 1998, Pengasas David dan Bianca Lisonbee telah memulakan perjalanan untuk membawa produk 4Life Transfer Factor® yang luar biasa ke seluruh dunia. Berlainan daripada makanan tambahan lain yang anda boleh dapatkan di setiap kedai makanan kesihatan, transfer factor bukanlah vitamin, mineral atau herba. Sebaliknya, ia adalah molekul penghantar kecil yang terdiri daripada asid amino yang membantu kesihatan.

Pengenalan 4Life Transfer Factor membuka pintu kepada kajian lanjutan, teknik terpaten dan kategori baharu untuk produk kesejahteraan yang menyokong kesihatan dalam cara yang berbeza. Pasukan Kajian dan Pembangunan Dalam dan Lembaga Penasihat Sains Kesihatan (HSAB) kami, terdiri daripada pakar nutrisi dan pakar perubatan yang terus meningkatkan piawaian untuk makanan tambahan moden dan memastikan kecanggihan kualiti produk kami.

Disebabkan komitmen kami yang mendalam terhadap kualiti, keunggulan dan inovasi saintifik, kami mengesahkan setiap produk 4Life Transfer Factor® yang kami jual. Di makmal kawalan kualiti canggih kami, kami melakukan ratusan ujian pada setiap produk untuk memastikan identiti, ketulenan, kekuatan, dan komposisinya. Banyak produk menjalani ujian jaminan kualiti tambahan yang ketat sebelum dikeluarkan untuk diedarkan.

Produk kami adalah asas dan nadi perniagaan kami. Kami berusaha untuk mencipta produk yang memenuhi dan melebihi piawian tertinggi, jadi anda boleh yakin untuk memasukkannya ke dalam rutin kesihatan anda dan berkongsi dengan rakan-rakan dan orang tersayang.

4LIFE TRANSFER FACTOR®

Did You Know?

The adult human gut contains over 100 trillion bacteria. In a healthy gut, only a small percentage of the bacteria present are harmful. The 'good' bacteria or probiotics help maintain intestinal wellness by promoting digestive function and nutrient absorption, as well as regular bowel function and health. They are also a key component of the body's immune defense system. Diet, lifestyle, antibiotics, stress and other factors can offset this balance and lead to digestive and health issues.

Tahukah Anda?

Usus orang dewasa mengandungi lebih daripada 100 trilion bakteria. Dalam usus yang sihat, hanya peratusan kecil bakteria adalah berbahaya. Bakteria 'baik' atau probiotik membantu memelihara kesihatan usus dengan menggalakkan fungsi pencernaan dan penyerapan nutrien, serta fungsi dan kesihatan usus yang normal. Ia juga adalah komponen penting dalam sistem pertahanan imun badan. Diet, gaya hidup, antibiotik, tekanan dan faktor-faktor lain boleh mengganggu keseimbangan ini dan mengakibatkan masalah pencernaan dan kesihatan.

TEA4LIFE®

Blends together delicious herbs such as senna leaf, ginger, rooibos and echinacea, Tea4Life is a refreshing and cleansing tea that is specially formulated to promote intestinal health and wellness.

- Natural apple-cinnamon flavor with no artificial coloring, flavors or sweeteners.
- Recommended to be taken with a balanced diet and regular exercise.
- IFANCA Halal certified.

Did You Know?

As one of the body's most essential organs, the liver helps remove toxins from blood along with other vital functions, including the production of enzymes and bile that aid in the digestion of food and energy storage to fuel muscles. A healthy diet and nutritional supplementation can help protect the liver from oxidative stress and potentially harmful substances, and keep it functioning optimally.

Tahukah Anda?

Sebagai salah satu organ yang paling penting dalam badan, hati membantu menyingkir toksin dalam darah di samping mempunyai fungsi penting yang lain, termasuk penghasilan enzim dan hempedu yang membantu mencerna makanan dan menyimpan tenaga untuk digunakan oleh otot. Diet yang sihat dan suplemen makanan boleh membantu melindungi hati dari stres oksidatif dan bahan-bahan yang berbahaya, dan memastikan ia berfungsi secara optimum.
