PRODUCT GUIDE
MALAYSIA VERSION

(English & Chinese)

In 1998, Founders David and Bianca Lisonbee embarked on a journey to bring phenomenal 4Life Transfer Factor® products to the world. Unlike common supplements you find in health food stores, transfer factors aren't vitamins, minerals, or herbs. Instead, they're messenger molecules that transfer immune system memory and knowledge from one entity to another.

The introduction of 4Life Transfer Factor opened the door for further research, patented techniques, and a new category of immune system products that support health in a different way—by the immune system, for the immune system. Our in-house Quality department, which is comprised of scientists and medical professionals, continually raises the standard for modern-day immune system supplementation and ensures the cutting-edge quality of our products.

Because of our deep commitment to quality, excellence, and scientific innovation, we certify every 4Life Transfer Factor product we sell. In our state-of-the-art, million-dollar testing lab, we conduct at least 20 tests per product to ensure identity, purity, strength, and composition. Many products undergo additional, rigorous quality assurance tests before we release them for distribution.

Our products are the foundation and heart of our business. We strive to create products that meet and exceed the highest standards, so you can feel confident incorporating them into your health routine and sharing them with your friends and loved ones.

1998年，创始人 David 和 Bianca Lisonbee 开启了把 4Life 卓越的转移因子产品带向世界的旅程。与您在每家健康食品商店常见的营养辅助品不同，转移因子不是维生素、矿物质或草药，而是将免疫系统的记忆和知识从一个个体转移到另一个个体的信息传递分子。

4Life 转移因子的引入为进一步的研究、专利技术以及以不同方式支援健康的免疫系统产品类型打开了大门，即通过免疫系统，为免疫系统服务。我们的内部质量部门由科学家和医学专家组成，不断提高现代免疫系统辅助品的标准，确保我们的产品保有最尖端的品质。

鉴于我们对产品的品质、卓越性以及科学创新的坚定承诺，我们认证每一个出售的 4Life 转移因子产品。在我们最先进且价值百万美元的测试实验室中，我们对每个产品进行至少 20 次测试，以确保其特性、纯度、强度及成分组成符合标准。许多产品在分发销售之前，都要经过很多严格的品质保证测试。

我们的产品是我们业务的基础和核心。我们努力创造出符合并超出最高标准的产品，因此您可以放心将其纳入您的健康饮食常规并与您的朋友和亲人分享。
