

To Whom It May Concern:

4Life tests our products for banned substances in the following categories: (1) performance enhancing drugs in sports nutrition products, (2) erectile dysfunction drugs (i.e., PDE-5 inhibitors) and structural analogs in sexual vitality products, as well as (3) stimulants, diuretics, laxatives, etc. in weight management products. See below for the specific list of tested 4Life products.

Category	Product
Sports Nutrition	Pro-TF Vanilla, Pro-TF Chocolate
Health and Vitality	Transform Man, Transform Woman, Renuvo
Weight Management	Transform Burn

All these tests are performed at independent, ISO-accredited laboratories and use the latest technologies, including liquid chromatography tandem mass spectrometry. Prior to any banned substance testing, the 4Life R&D and Quality Departments consult with these laboratories to ensure the testing is conducted on the most comprehensive and up-to-date list of banned substances found in the marketplace. Additionally, all products are shipped to the laboratories un-opened and with tamper-evident seals in place.

The attached reports demonstrate that these product lots are free from banned substances. It is the position of the R&D and Quality Departments of 4Life Research, that the attached analyses are accurate representations of the absence of banned substances in 4Life products.

4Life encourages its customers and distributors to be informed about the supplements they take. 4Life has a rigorous process for qualifying suppliers and the ingredients they supply us to ensure the identity, strength, purity, and composition of all materials that go into our products. 4Life also maintains NSF certification for good manufacturing practices (GMPs). We also take special care to make certain that only the most reliable and repeatable testing is done on our products, including the banned substance testing.

4Life is committed to providing the highest quality and safest products on the market and we stand behind the products we make.

ANALYTICAL REPORT - 2303017

Reason for Analysis: Banned Substances Control Group (BSCG) was contracted to perform testing on several items for the presence of anabolic steroids and other related compounds.

Receiving: On March 9, 2023, a package was received intact with no signs of tampering at our ISO 17025 accredited laboratory partner. The package contained six items identified as follows:

24201 USA TF Renuvo 120 ct - 22070075
27016 USA Transform Women 120 ct - 22060044
26535 USA Transform Man 120 ct - 22060071
27568 USA PRO-TF Protein Powder 46svg Canister - 270CN1A
27577 USA PRO-TF Choc Protein Pwd 46svg Bottle - GB22068FA
27584 USA Transform Burn 80ct. - 22060007

Analytical Method: Samples of the items were extracted and analyzed for anabolic steroids and other related compounds according to in-house methods for nutritional supplements by ultra-high-performance liquid chromatography / high-resolution mass spectrometry (UHPLC/HRMS). The testing menu included the list of compounds on page two. Method detection levels, which vary based on matrix analyzed, are estimated to be in the 2-500 ng/g range for most compounds in most supplement items.

Analytical Findings: No compounds in the testing menu were detected in the items.

Sincerely,

Oliver Catlin
President

Disclaimer: Analytical results apply only to the samples tested. BSCG makes no claims or representations about the item(s) and does not certify, endorse, make statements about the efficacy or safety, or make any other assurances regarding the item(s). Results are for internal use only not for marketing purposes and do not indicate certification of items tested. This report may not be posted or used publicly in any fashion.

List of Compounds

16β-hydroxystanozolol	S1 - Anabolic Agents	Metenolone (Methenolone)	S1 - Anabolic Agents
17-hydroxyprogesterone (17 alpha-hydroxyprogesterone)	S1 - Anabolic Agents	Methandienone (methandrostenolone)	S1 - Anabolic Agents
19-Norandrostenediol	S1 - Anabolic Agents	Methandriol	S1 - Anabolic Agents
19-Norandrostenedione	S1 - Anabolic Agents	Methasterone	S1 - Anabolic Agents
19-Norandrosterone	S1 - Anabolic Agents	Methyl-1-Testosterone	S1 - Anabolic Agents
1-Androstenedione	S1 - Anabolic Agents	Methyldienolone	S1 - Anabolic Agents
1-Testosterone (17β-hydroxy-5α-androst-1-en-3-one)	S1 - Anabolic Agents	Methylnortestosterone	S1 - Anabolic Agents
3-Hydroxy Stanozolol	S1 - Anabolic Agents	Methyltestosterone	S1 - Anabolic Agents
4-Androstenediol (Androst-4-ene-3β,17β-diol)	S1 - Anabolic Agents	Mibolerone	S1 - Anabolic Agents
4-Hydroxytestosterone (4,17β-dihydroxy-4-androstene-3-one)	S1 - Anabolic Agents	Nandrolone	S1 - Anabolic Agents
5-Androstenedione (D-5-Androstenedione, 5-Androsten-3,17-dione, Androst-5-ene-3,17-dione)	S1 - Anabolic Agents	Norbolethone	S1 - Anabolic Agents
5α-Androstan-3α,17β-diol	S1 - Anabolic Agents	Norclostebol	S1 - Anabolic Agents
5α-Androstan-3β,17α-diol	S1 - Anabolic Agents	Norethandrolone	S1 - Anabolic Agents
5α-Androstan-3β,17β-diol (3β-androstenediol)	S1 - Anabolic Agents	Ostarine	S1 - Anabolic Agents
5α-Estran-3β,17α-diol (Tetrahydronandrolone)	S1 - Anabolic Agents	Oxabolone	S1 - Anabolic Agents
6-Bromoandrostenedione	S1 - Anabolic Agents	Oxandrolone	S1 - Anabolic Agents
6α-hydroxyandrostenedione	S1 - Anabolic Agents	Oxymesterone	S1 - Anabolic Agents
6β-hydroxymethandienone	S1 - Anabolic Agents	Oxymetholone	S1 - Anabolic Agents
6β-hydroxyturinabol	S1 - Anabolic Agents	Prasterone (dehydroepiandrosterone, DHEA, androstenolone, 3β-hydroxyandrost-5-ene-17-one, 5-androsten-3β-ol-17-one)	S1 - Anabolic Agents
Andarine	S1 - Anabolic Agents	Prostanazol	S1 - Anabolic Agents
Androstanolone (Dihydrotestosterone, DHT, 5α-dihydrotestosterone, 17β-hydroxy-5α-androstan-3-one, 5α-androstan-17β-ol-3-one)	S1 - Anabolic Agents	Quinbolone	S1 - Anabolic Agents
Androstenedione (4-Androstenedione)	S1 - Anabolic Agents	Stanozolol	S1 - Anabolic Agents
Androsterone (3α-hydroxy-5α-androstan-17-one)	S1 - Anabolic Agents	Stenbolone	S1 - Anabolic Agents
Bolasterone (7α,17α-Dimethyltestosterone)	S1 - Anabolic Agents	Testosterone	S1 - Anabolic Agents
Boldenone	S1 - Anabolic Agents	Tetrahydrogestrinone	S1 - Anabolic Agents
Boldione (androstandienedione, 1,4-androstandiene-3β,17β-dione)	S1 - Anabolic Agents	Tibolone	S1 - Anabolic Agents
Calusterone	S1 - Anabolic Agents	Trenbolone	S1 - Anabolic Agents
Cardarine	S1 - Anabolic Agents	Turinabol (Clostebol acetate)	S1 - Anabolic Agents
Clenbuterol	S1 - Anabolic Agents	Zeranol	S1 - Anabolic Agents
Clostebol	S1 - Anabolic Agents	Zilpaterol	S1 - Anabolic Agents
Danazol	S1 - Anabolic Agents	16β-hydroxystanozolol	S1 - Anabolic Agents
Dehydrochlormethyltestosterone (Oral Turinabol, 4-chlorodehydromethyltestosterone)	S1 - Anabolic Agents	17-hydroxyprogesterone (17 alpha-hydroxyprogesterone)	S1 - Anabolic Agents
Dromostanolone	S1 - Anabolic Agents	19-Norandrostenediol	S1 - Anabolic Agents
Drostanolone	S1 - Anabolic Agents	19-Norandrostenedione	S1 - Anabolic Agents
Epiboldenone (17α-Boldenone)	S1 - Anabolic Agents	19-Norandrosterone	S1 - Anabolic Agents
Epimethandienone	S1 - Anabolic Agents	1-Androstenedione	S1 - Anabolic Agents
Epioxandrolone	S1 - Anabolic Agents	1-Testosterone (17β-hydroxy-5α-androst-1-en-3-one)	S1 - Anabolic Agents
Epitestosterone	S1 - Anabolic Agents	3-Hydroxy Stanozolol	S1 - Anabolic Agents
Epitrenbolone	S1 - Anabolic Agents	4-Androstenediol (Androst-4-ene-3β,17β-diol)	S1 - Anabolic Agents
Ethylestrenol	S1 - Anabolic Agents	4-Hydroxytestosterone (4,17β-dihydroxy-4-androstene-3-one)	S1 - Anabolic Agents
Etiocholanolone (3α-hydroxy-5β-androstan-17-one)	S1 - Anabolic Agents	5-Androstenedione (D-5-Androstenedione, 5-Androsten-3,17-dione, Androst-5-ene-3,17-dione)	S1 - Anabolic Agents
Fluoxymesterone	S1 - Anabolic Agents	5α-Androstan-3α,17β-diol	S1 - Anabolic Agents
Formebolone	S1 - Anabolic Agents	5α-Androstan-3β,17α-diol	S1 - Anabolic Agents
Gestrinone	S1 - Anabolic Agents	5α-Androstan-3β,17β-diol (3β-androstenediol)	S1 - Anabolic Agents
Hydroxyandrosterone, Hydroxyetiocholanolone	S1 - Anabolic Agents	5α-Estran-3β,17α-diol (Tetrahydronandrolone)	S1 - Anabolic Agents
Ligandrol (LGD-4033)	S1 - Anabolic Agents	6-Bromoandrostenedione	S1 - Anabolic Agents
Mestanolone	S1 - Anabolic Agents	6α-hydroxyandrostenedione	S1 - Anabolic Agents
		6β-hydroxymethandienone	S1 - Anabolic Agents
