Digestive Enzymes

Sixteen unique digestive enzymes to support digestive health*

- Supports healthy digestion of food*
- · Reduces intestinal discomfort associated with food digestion*
- Supports overall digestive health*

What Is Digestive Enzymes?

Digestive Enzymes is a proprietary blend of 16 different enzymes that supports digestive health by aiding in the breakdown of proteins, carbohydrates, and fats; and, in turn, the absorption of nutrients. Aging, illness, and stress may reduce the number of digestive enzymes produced by the body, causing incomplete digestion and unwanted side effects such as bloating, abdominal discomfort, and flatulence. Supplementing with Digestive Enzymes can make up for these temporary deficiencies and support your body's ability to get the most of out of your food.*
