RioVida Gummies

December
Product Special

THE IMMUNE SYSTEM *Company*

RioVida[®]

GUMMIES

Have you heard the news?

We added a new limited-time product to the RioVida product line. In addition to the liquid, gel, powder pack, and chews, we now have (drum roll) RioVida Gummies!

RioVida Gummies are for ages four and up, and they support the immune system and antioxidant levels. We just know your whole family will love this delicious new way to give your immune system a boost.*

Immune System Support

RioVida Gummies support the immune system with **300 mg of 4Life Transfer Factor[®] Blend** per serving. RioVida Gummies contain UltraFactor[®] and NanoFactor[®] from cow colostrum and OvoFactor[®] from chicken egg yolks. 4Life Transfer Factor Blend provides broad-based and specific support for your immune system. When your immune system is educated, it can better recognize, respond to, and remember potential health threats, which means you can get out there and live your best life.*

Antioxidant Support

RioVida Gummies contain vitamin C and fruit juices from blueberries, grapes, elderberries, and more. Vitamin C and these fruit juices are an important part of the formula because they provide your body with antioxidants. Antioxidants fight against potentially harmful molecules in your body called free radicals. Antioxidants are a great way to support cellular health and the immune system, and to keep your body running the way it should.*

Power up your immune system with these tiny-but-tasty gummies!*

*Each serving of RioVida Gummies (3 gummies) provides 90 mg of vitamin C, which is a powerful antioxidant that also supports the immune system.**
