A Love Letter to the February
Product Special

THE IMMUNE SYSTEM *Company*[®]

A Love Letter to the February Product Special!

Dear February Product Special,

I love you! There, I said it. You support my heart health with powerful, scientifically backed ingredients. Plus, you support my immune system. What more could someone ask for in a Valentine?*

My heart beats for you and you alone. I could talk about your products all day...

4Life Transfer Factor Cardio

One reason I love you is your 4Life Transfer Factor Cardio! This product contains a powerful blend of ingredients that make my heart happy. This formula has 4Life Transfer Factor®, which supports my immune system with molecules from chicken egg yolk. Plus, 4Life Transfer Factor Cardio includes **ginkgo biloba**, which supports healthy circulation throughout my entire body, including to my brain. This formula also includes **red rice yeast extract**, which helps improve circulation and supports cholesterol levels already in the healthy range.*

Some people may not find garlic romantic, but I do! The **garlic** in 4Life Transfer Factor Cardio supports heart health and cholesterol and blood pressure levels already in the healthy range. You've introduced me to ingredients I had never heard of before, but I love them now because I know what they do for my body. **Coenzyme Q10** is a naturally occurring substance in my body that supports my heart and circulatory health.*

Resveratrol is a naturally occurring compound found in the skins of some fruits and in peanuts. Resveratrol supports heart health and antioxidant levels.*

You, my one and only love, are full of ingredients that keep on giving. I love you for so many reasons, but this next product is also at the top of my list.

Essential Fatty Acid Complex

Essential Fatty Acids are important for heart health, and my body can't make them on its own, so they have to come from my diet. . . or from you! Most essential fatty acid supplements contain essential fatty acids from either plants or from fish oil, but you have both. You're just special that way.*

Essential Fatty Acid Complex contains omega-3 fatty acids from fish oil. **Fish oil** supports brain health and heart health. Essential Fatty Acid Complex also contains oil from **borage seeds, safflower seeds, and flaxseeds**. These three seeds are rich sources of essential fatty acids, which means they support my heart health and strong cell membranes.*

Thanks for taking care of my heart.

xoxo
