THE IMMUNE SYSTEM *Company*

This One's for the Girls

October is breast health awareness month, so we're focusing on two products to support female health, the immune system, and more. These products are for any woman who wants to take charge of her own health and wellness and be her best!*

4Life Transfer Factor Belle Vie is one of our signature women's health products from the Targeted Transfer Factor® line, and it has plenty of powerful ingredients to support women's health and antioxidant levels.*

Let's start with some flowering plants in Belle Vie with powerful benefits. Kudzu grows in southeast Asia and is known as a 'climbing plant' because it grows so quickly. It has reddish-purple flowers. Red clover is part of the legume family, but it looks like a pink flower on top. Flax has small purple flowers and grows to be between three and four feet tall. Kudzu, red clover, and flax have isoflavones and lignans, which are compounds that support women's reproductive and breast health.*

When you take Belle Vie, you get not one, not two, but THREE sources of potent antioxidants from green tea; grape seed extract; and a cruciferous blend with broccoli, cabbage, and kale. Why leave your antioxidant levels up to chance when you can give them powerful support with Belle Vie instead?*

4Life Transfer Factor KBU is another product from our Targeted Transfer Factor product line, and it supports healthy kidney, bladder, and urinary tract function. Not the most glamorous functions, but they are still incredibly important for your overall health and wellness!*

KBU also has some great ingredients to support antioxidant levels in your body, like juniper berry, dandelion, and blueberry, which is a superfood.*

KBU also has cranberry, which supports antioxidant levels and urinary health.*

4Life is The Immune System Company®, so both these products feature 4Life Transfer Factor® for immune system support, too. When you feel your best, you can be your best, which is why we offer so many great ways to support your immune system.*
