# HAPPY FEBRUARY!

Cue the love songs and pass the candy hearts, because it's the season of love! When it comes to love, it's all about that vital organ that pumps all day, every day, to keep you going: your heart!

This month, we're highlighting one of our top-selling products: **4Life Transfer Factor® Cardio**. This product supports circulatory and cardiovascular health and your immune system with **4Life Transfer Factor®**! Let's talk about the ingredients that make this product so powerful.\*

## Supports healthy circulation\*

Your heart pumps blood throughout your body, and it beats about 100,000 times every day! 4Life Transfer Factor Cardio supports circulation with these ingredients:\*

- Ginkgo biloba increases the blood circulation to your brain, which is important because blood brings necessary oxygen and nutrients to your brain.\*
- Hawthorn leaf extract supports healthy blood circulation around your heart.\*
- Butcher's Broom supports healthy blood circulation in the extremities of your body.\*

## Supports healthy blood pressure\*

Blood pressure is how hard your blood pushes against the walls of your arteries, and keeping it on the low end is a good thing! When doctors measure your blood pressure, they will tell you two numbers. The first number measures when your heart beats, and the second number measures between heart beats. Cardio has these ingredients to support healthy blood pressure:\*

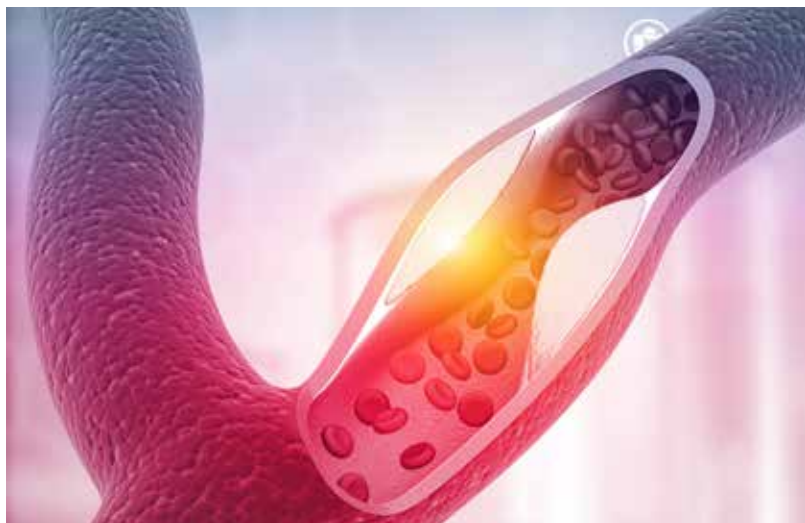

- Coenzyme Q10 is an antioxidant your body naturally produces to support healthy blood pressure and help maintain your heart muscle.\*
- Garlic also supports healthy blood pressure.\*

## Supports cholesterol levels already in the healthy range\*

Cholesterol helps build healthy cells in your body, but too much cholesterol can build up and create deposits in your arteries. Keeping your cholesterol at a healthy level is important for heart health and circulatory health. 4Life Transfer Factor Cardio has you covered with these ingredients to support healthy cholesterol levels:\*

- Ginger and resveratrol both promote healthy cholesterol levels already in the healthy range.\*
- Red Rice Yeast Extract contains naturally occurring compounds that inhibit the activity of a liver enzyme that produces cholesterol.\*

# February Product Special!

Support your heart health with the February Product Special! Get one 4Life Transfer Factor Cardio and two Essential Fatty Acids Complex with omega-3 and omega-6 essential fatty acids (EFAs). EFAs support healthy cardiovascular function!\*
