THE IMMUNE SYSTEM *Company*[®]

Covering the bases of men's health

This month, we want to take you out to the ball game. Our bases are loaded with four areas every man should support to knock it out of the park!*

HOME PLATE

Immune System Health

Immune system science is what we do. It's our home base! Your immune system promotes overall wellness and responds to health threats. Your immune system is made up of many different kinds of cells, each with its own function and role. Think of your immune system like its own baseball team, and the health threats you encounter are the opposing team. Each immune system cell type on your team plays a specific part in seeing that the home team (you!) comes out with a win! When your immune system is healthy and educated, your overall health and wellness improves.

DID YOU KNOW?

4Life Transfer Factor MalePro and RiteStart Men have powerful ingredients to support the immune system like 4Life Transfer Factor and Zinc. We are, after all, The Immune System Company®.*

FIRST BASE

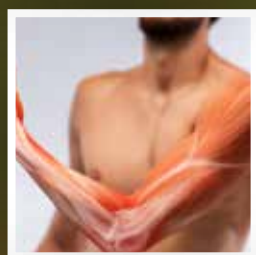

Heart Health

Your heart is the most important muscle in your body and a vital organ. Your heart pumps about 2,000 gallons a day, which means it beats about 100,000 times a day. Your cardiovascular and circulatory systems are also immensely important, since they help carry the blood from your heart to the rest of your body and back to your heart again. Heart disease is a major problem in the U.S., so taking care of your heart is vital.

DID YOU KNOW? RiteStart Men supports heart health with essential fatty acids, vitamins, and minerals.*

SECOND BASE

Muscle and Bone Health

When you have strong muscles, your body is more resilient, and you are less likely to fall and get injured. When you have strong bones, you can stay active and continue enjoying physical activity.

DID YOU KNOW? RiteStart Men has powerful ingredients like glucosamine to support muscle and bone health.*

THIRD BASE

Male Health

We may not talk about the endocrine system much, but it is so important. The endocrine system deals with hormone production, which affects metabolism, mood, libido, and growth and development.

DID YOU KNOW? 4Life Transfer Factor MalePro supports prostate health and the endocrine system with ingredients like saw palmetto, lycopene, and isoflavones. Plus, RiteStart Men has a proprietary men's health blend to support male health, too.*

Check out the back page for some more info on these great men's health products.*

Cover your bases!

With the June Product Special, you get two of our bestselling men's health products to support the immune system, heart health, muscle and bone health, and prostate health.*

1 – 4Life RiteStart Men

Supports the immune system, heart health, muscle and bone health, male health, and more*

1 – 4Life Transfer Factor MalePro

Supports a healthy prostate, endocrine system, and the immune system*
