4Life<sup>®</sup>

# Age Healthier!\*

We want to highlight an amazing product we launched at convention: 4Life Transfer Factor AgePro! You have more control over your aging than you may think. AgePro helps your body combat the big three aging challenges.\*

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

## CHALLENGE 1: AGING IMMUNE CELLS

Your cells, including your immune cells, age, just like you do. An older immune system can't protect you like it once did because older immune cells may respond slower than younger immune cells.

**Solution:** 4Life Transfer Factor AgePro!  
4Life Transfer Factor® has been shown to activate and rejuvenate aging immune cells!<sup>^</sup> If you're only as old as you feel, put your trust in a product that supports a strong immune system and helps you feel your best: AgePro.\*

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

<sup>^</sup>In preclinical studies.

## CHALLENGE 2: CELLULAR SENESCENCE ("ZOMBIE CELLS")

As you age, senescent cells (we call them "zombie cells") can linger in the body, accumulate, and emit toxins that can compromise healthy cells.

**Solution:** 4Life Transfer Factor AgePro! This product contains quercetin, which helps the body clear out old, malfunctioning cells.<sup>^^</sup> Quercetin is also a potent antioxidant, meaning it protects your body from harmful free radicals.\*

4Life Transfer Factor AgePro also features white button mushroom extract, which is an exclusive ingredient to 4Life. In laboratory studies, this ingredient helped eliminate old, senescent cells and supported healthy cell function.\*

## CHALLENGE 3: LOWER NAD+ LEVELS

NAD+ is a life-essential coenzyme. As early as age 30, NAD+ production may begin to decrease. Less NAD+ in the body sets the cells to “lower power mode,” which means a lower-functioning you.

**Solution:** 4Life Transfer Factor AgePro! This product contains NMN, which supports indicators of NAD+ within an hour. NMN has also been clinically proven to improve physical performance and support healthy aging.\*

Within 60 days of taking 4Life Transfer Factor AgePro, you may experience improved cellular energy, physical performance, endurance, overall health, and wellness. Reprogram the way you age with 4Life Transfer Factor AgePro.\*

MAY PRODUCT SPECIAL

Ready to  
reprogram  
the way  
you age?\*

Get three bottles of 4Life  
Transfer Factor AgePro  
and **save \$27** with the  
May Product Special!
