4LIFE TRANSFER FACTOR® COLLAGEN

Beauty Starts From Within

4Life Transfer Factor® Collagen contains 5,000 mg fish-derived Type-I hydrolysed collagen to support healthy aging by restoring healthy collagen levels within the body. It features 4Life Tri-Factor® Formula to help support total body wellness. It also includes vitamin C and E.

Collagen is a vital structural protein in the human body. Often referred to as the "glue" that holds your body together, collagen is present in connective tissue throughout your body, including the skin. Collagen is made of three amino acid strands wound together that form a triple-helix. These triple-helices form collagen fibers, which are the main components of connective tissue in your body.*

Did you know?

Type-I collagen is the most abundant, longest-known and best-studied collagen in vertebrates. It forms 90% of the organic mass of bone and tendon and is the major collagen of skin, ligaments, cornea, and many interstitial connective tissues.¹

PRIMARY SUPPORT

- Healthy Aging*
- Skin Health & Beauty*

SECONDARY SUPPORT

- Immune System*
- Antioxidant*

KEY POINTS

- Replenishes collagen levels to support healthy skin*
- Improves skin moisture, tone, and elasticity*
- Slows the appearance of fine lines and wrinkles*
- Contains vitamin C and E to support the skin*
- Promotes overall longevity and healthy aging*
- Stimulates collagen synthesis in the body*
- Includes 4Life Transfer Factor® to help the immune system recognize, respond to, and remember potential health threats*

DIRECTIONS: Mix one (1) stickpack with 240 ml of your desired beverage

INGREDIENTS: Hydrolysed fish collagen (5,556 mg), diluent (sucrose), sodium chloride (salt), milk solids, natural vanilla peppermint flavor, diluent (maltodextrin), vitamin C (ascorbic acid), egg yolk, and vitamin E (d-alpha tocopherylacetate).

Contains ingredients from fish, milk, and egg.

Net Quantity: 15 Packets

WHAT IS COLLAGEN?

- Vital structural protein in the human body
- "Glue" that holds your body together
- Present in connective tissue throughout your body, including the skin

WHY 4LIFE TRANSFER FACTOR® COLLAGEN?

5,000 MG hydrolysed collagen per sachet

Sourced from 6 different types of fish - pangasius, hypophthalmus, tilapia, clarias gariepinus, cod, catfish, and haddock.

Vitamin C & E antioxidants

Type-I Collagen

The only collagen product on the market with 4Life® Tri-Factor® Formula immune system support*

Mix with any beverage of your choice

The collagen market is projected to reach **\$6.63 BILLION** by 2025.²

Roughly **30%** of your body's protein is collagen.³

Collagen production declines throughout adult life.⁴

The word collagen is derived from the Greek word **KÓLLA** meaning glue.

Frequently Asked Questions

Q: What is collagen?

A: Collagen is a vital structural protein in the human body. Often referred to as the "glue" that holds your body together, collagen is present in connective tissue throughout your body, including the skin. Collagen is made of three amino acid strands wound together that form a triple-helix. These triple-helices form collagen fibers, which are the main component of connective tissue in your body.*

Q: What is 4Life Transfer Factor® Collagen?

A: 4Life Transfer Factor® Collagen contains 5,000 mg fish-derived Type-I hydrolysed collagen to support healthy aging by restoring healthy collagen levels within the body. It features 4Life Tri-Factor® Formula to help support total body wellness. It also includes vitamin C and E.

4Life Transfer Factor® Collagen:

- Replenishes collagen levels to support healthy skin*
- Improves skin moisture, tone, and elasticity*
- Slows the appearance of fine lines and wrinkles*
- Contains vitamin C and E to support the skin*
- Promotes overall longevity and healthy aging*
- Stimulates collagen synthesis in the body*
- Includes 4Life Transfer Factor® to help the immune system recognize, respond to, and remember potential health threats*

Q: Why is collagen so vital?

A: Collagen is the most abundant protein in your body. When you're young and still developing, your body produces enough collagen to support your needs. Over time, collagen production declines and your body begins breaking down, making supplementation important.

Q: How does 4Life Transfer Factor® Collagen benefit my skin?

A: 4Life Transfer Factor® Collagen helps replenish collagen levels to support healthy skin. It improves skin moisture, tone, and elasticity and slows the appearance of fine lines and wrinkles. Plus, it supports immune system function with 4Life Transfer Factor®.*

Q: Why is 4Life Tri-Factor Formula included in 4Life Transfer Factor® Collagen?

A: Your skin is the first line of defense in your immune system. 4Life Tri-Factor Formula supports immune system function.*

Q: Where does 4Life source the collagen for this product?

A: The collagen in 4Life Transfer Factor® Collagen comes from fish.

Q: Which antioxidants are included in this product?

A: Vitamin C and E provide additional antioxidant support.

Q: Are there any specific benefits for men who take 4Life Transfer Factor Collagen?

A: Collagen is a major structural protein used in the body that provides regenerative support to muscles, joints, bones, and connective tissue. Men who frequently exercise or rely on their physical strength, muscle, stamina, and conditioning in a daily work environment can take 4Life Transfer Factor® Collagen to replenish this vital protein.*

Q: Why does this product contain hydrolysed fish collagen?

A: Collagen molecules are large and can be difficult for your body to use. Hydrolyzing the collagen breaks up the peptides into much smaller units that are easier for your body to utilize.

Q: Which type of fish does 4Life use for its hydrolysed fish collagen?

A: The hydrolysed fish collagen is sourced from pangasius hypophthalmus, tilapia, clarias gariepinus, cod, catfish, and haddock.

Q: Is 4Life Transfer Factor® Collagen gluten-free and soy-free?

A: Yes! 4Life Transfer Factor® Collagen is gluten-free and soy-free!

Q: What is the difference between collagen protein and PRO-TF®? Why do I need both?

A: PRO-TF provides whey and egg protein hydrolysate, which supports muscle mass, sports performance, and weight management. 4Life Transfer Factor® Collagen provides collagen protein, which supports skin. Like PRO-TF, collagen is made from amino acids. However, unlike PRO-TF, 4Life Transfer Factor® Collagen provides specific building blocks that your body uses to make collagen.*

Q: How long will it take to see or feel the benefits of 4Life Transfer Factor® Collagen?

A: You can expect to see and feel results in 8 weeks.*

Q: What flavor is 4Life Transfer Factor® Collagen?

A: 4Life Transfer Factor® Collagen comes in a mild natural vanilla peppermint flavor which allows you to mix and match with any drink or beverage.

Q: How many calories are in each pack of 4Life Transfer Factor® Collagen?

A: Each stick pack contains 30 calories.

Q: How can I include 4Life Transfer Factor® Collagen into my lifestyle?

A: 4Life Transfer Factor® Collagen can be mixed with 240 ml or more of water, or you can mix it with PRO-TF, or NutraShake, or any other beverage.
