

BEST HEALTH & IMMUNE SYSTEM SUPPLEMENT PROVIDER

4Life Named
Best Health & Immune System
Supplement Provider
In United States of America

Since 1998, 4Life Research has developed products based upon science, research, and proprietary formulations. The company's commitment to ingredient studies, academic publications, quality control, and good manufacturing practices has attracted many generational customers from countries around the world. Today, 4Life remains committed to a

philosophy of crafting patent-protected formulas. 4Life collaborates with major universities and third-party laboratories. A group of in-house PhDs, chemists, biologists, and researchers oversee 4Life's analytical testing laboratories and product substantiation processes.

4Life Research:
Product Development for
Lifelong Customers

We here at Corporate America Today are proud to name 4Life Research 2020's Best Health & Immune System Supplement Provider in the United States of America.

There are many reasons for our decision. To begin, 4Life has remained a product-centric innovator of immune system supplements for over two

decades. Along the way, 4Life has attracted hundreds of employees committed to superior customer service. 4Life advertises a 100% Customer Satisfaction Guarantee (offering a 100%, 30-day money back satisfaction guarantee on the purchase price of products). Additionally, the Better Business Bureau has accredited 4Life and given the company a long-standing A+ rating.

The company's privately-owned manufacturing plant is an NSF® International, GMP-registered facility.

The majority of dairy farms that provide 4Life with colostrum for the company's immune system support products

belong to the National Dairy Farmers Assuring Responsible Management (FARM) Program. This group adheres to guidelines that ensures a cruelty-free environment for animals.

Some of the company's products incorporate egg-derived ingredients. These poultry farms belong to the United Egg Producers (UEP), a cooperative committed to the health and well-being of hens.

4Life Science Recognized

Earlier this year, 4Life Transfer Factor® Collagen won the The American Business Award's People's Choice Stevie Award for Best New Product in Skincare and Age Defiance. Editors at Luxlife magazine also distinguished 4Life as Health Supplement Company of the Year in the State of Utah. In

Brussels, Belgium, 4Life received The International Quality Institute's 2020 Monde Selection Silver Award. 4Life Transfer Factor Collagen was also honored with a Gold Golden Bridge Award in the category of Health.

We are proud to round out the year with our unique distinction: Best Health & Immune System Supplement Provider in United States of America.

Identity, Purity, Strength, Composition

4Life's longstanding commitment to the identity, purity, strength, and composition of every product is a mark of distinction among competitors. 4Life has obtained more than forty patents over the past twenty-two years.

At any given time, the company has dozens of patents pending.

This strategy, or "patent philosophy," reveals the company's commitment to generational customers. The patents
