

# 4LIFE TRANSFER FACTOR® GLUCOACH™

To support the metabolic and endocrine systems

Targeted and comprehensive support for metabolic and endocrine systems.

Maintaining healthy glucose (sugar) levels is an important part of pancreatic health and an even more important aspect of good health for millions of people around the world.

4Life Transfer Factor® Glucoach is formulated to promote healthy glucose levels in the body and provide support for both the metabolic and endocrine systems. In addition to patented Targeted Transfer Factor™ technology, 4Life Transfer Factor Glucoach is formulated with minerals, herbs, and phytonutrients that support healthy glucose tolerance and promote pancreatic health.

## Did you know?

Pterocarpus marsupium, Momordica charantia, (bitter melon) and Gymnema sylvestre support balanced glucose levels.

Ginseng and fenugreek promote healthy glucose. In addition, chromium support glucose tolerance.

## WHAT MAKES

## THIS PRODUCT UNIQUE?

Transfer factors are tiny messenger molecules that transfer immunity information from one entity to another.

4Life Transfer Factor Glucoach targets the superior immune system benefits of transfer factors to directly support the metabolic and endocrine systems.

## PRIMARY BENEFITS

- Supports healthy metabolic and endocrine system function
- Supports healthy immune response

## Key Points

- **Supports Healthy Immune Response:** Transfer factors are tiny molecules that transfer immunity information from one entity to another. These molecules support healthy immune responses, including the body's ability to remember past health threats. 4Life Transfer Factor GluCoach provides the benefit of Targeted Transfer Factor to support the metabolic and endocrine systems.
- **Supports Healthy Metabolic Function:** Pterocarpus marsupium, Momordica charantia (bitter melon), and Gymnema sylvestre are all well known for supporting balanced glucose levels.
- **Provides Antioxidant Support:** Turmeric has been shown to be an important antioxidant to support healthy metabolic systems and structures.

## Technical Points

- 4Life Transfer Factor GluCoach is a Targeted Transfer Factor product.
- The extraction processes for transfer factors and combination process for transfer factors from cow colostrum and chicken egg yolk are protected by US patent 6,468,534, and 6,866,868.

## Suggested Usage

It is recommended that the targeted products be taken with the 4Life Transfer Factor® products for maximum effectiveness.
