We Are **The Immune System Company**[®]

By now, you probably know that we've tapped into something amazing. Transfer factors are nature's original immune system support, and we've harnessed their power into one-of-a-kind products. These molecules may be tiny, but they have big potential. We want to take 4Life Transfer Factor® to the world, and we need YOU to help make it happen!*

Sharing Science

Innovation is what we do best! When you share 4Life products, you're sharing years of research and discovery. Our state-of-the-art laboratory has cutting-edge equipment and a top-tier team of scientists who formulate and develop our products. Each product undergoes hundreds of tests to ensure efficacy and quality, and many of our products are patented and validated by third parties to give you a unique edge in the marketplace.

Committed to Research

"4Life was founded on the principle of research. As pioneers of 4Life Transfer Factor Science, it's our duty to continually push the boundaries of science and innovation. We've only scratched the surface of possibility, and we won't stop—ever!"

Foundation 4Life[®]

Breaking the Cycle of Poverty

As a young girl, 4Life Founder Bianca Lisonbee dreamed of touching the lives of people all over the world. Foundation 4Life is Bianca's childhood dream come true. It provides the 4Life family with ways to help break the cycle of poverty through donations and meaningful acts of service.

Foundation 4Life believes that children are the beginning and end of the cycle of poverty. Its focus is addressing the significant needs of children all over the world so they can focus on simply being kids and dreaming big, just as Bianca did.

Positive change happens one smile, one meal, and one small act at a time. Together, our small acts can help break the cycle of poverty for children across the globe.
