

4Life Transfer Factor Metabolite™

Targeted support for healthy thyroid metabolism and antioxidant levels*

- Supports healthy thyroid function
- Moderates thyroid hormone production*
- Reduces post meal oxidative stress*
- Provides antioxidants*
- Features 4Life Transfer Factor® to support the immune system*

What is 4Life Transfer Factor Metabolite?

4Life Transfer Factor Metabolite is formulated to support your thyroid. The thyroid is a gland in the front of the neck that controls metabolism. It's part of the endocrine system, which makes hormones that help control many body functions. These hormones can affect how fast your heart beats, how deep you breathe, and whether you gain or lose weight. They can also help control your body temperature and cholesterol levels among other functions.*

Consuming antioxidants with food is important for maintaining a healthy physiological state. After eating a meal high in fat and sugar, our bodies get into a state of high oxidative stress.

4Life Transfer Factor Metabolite supports healthy metabolism. It combines key ingredients that support optimal thyroid function, post meal metabolism, thyroid hormone activation, and the immune system with 4Life Transfer Factor. It supports thyroid function, boosts the thyroid/immune connection with 4Life Transfer Factor, and protects your post meal oxidative state.*

Key Features:

- Contains iodine from kelp powder and selenium to support healthy thyroid function*
- Promotes higher antioxidant capacity with a Post Meal Metabolic Blend*
- Is a Targeted Transfer Factor® product specifically formulated to maintain and support healthy thyroid function*
- Features certified 4Life Transfer Factor to educate immune system cells*

Primary Support:

Thyroid Metabolism*
Endocrine System*

Secondary Support:

Post Meal Metabolism Support*
Weight Management*

DIRECTIONS: Take three (3) capsules per day, one with each meal.
