# THE IMMUNE SYSTEM COMPANY™

In 1998, Founders David and Bianca Lisonbee embarked on a journey to bring phenomenal 4Life Transfer Factor® products to the world. Unlike common supplements you find in health food stores, transfer factors aren't vitamins, minerals, or herbs. Instead, they're peptides that transfer immune memory and knowledge from one entity to another.\*

The introduction of 4Life Transfer Factor opened the door for further research, patented techniques, and a new category of immune system products that support health in a different way—by the immune system, for the immune system. Our in-house Research and Development team and Health Sciences Advisory Board (HSAB), comprised of nutritionists and medical professionals, continually raise the standard for modern-day immune system supplementation and ensure the cutting-edge quality of our products.\*

Because of our deep commitment to quality, excellence, and scientific innovation, we certify every 4Life Transfer Factor® product we sell. In our state-of-the-art quality control lab, we conduct hundreds of tests on each product to ensure its **identity, purity, strength, and composition.**

Many products undergo additional, rigorous quality-assurance tests before being released for distribution.

Our products are the foundation and heart of our business. We strive to create products that meet and exceed the highest standards, so you can feel confident incorporating them into your health routine and sharing them with your friends and loved ones.\*

## 4Life Transfer Factor® Acts as a Prebiotic by Boosting the Growth of Probiotics\*

4Life® Tri-Factor® Formula

An independent, university study assessed the potential benefit of Tri-Factor Formula in Pre/o Biotics. This in-vitro study measured probiotic growth in the presence or absence of Tri-Factor Formula in comparison to common prebiotics. Results revealed that Tri-Factor Formula enhances Pre/o Biotics by stimulating probiotic growth. These data suggest that Tri-Factor Formula has prebiotic effects and enhances the benefits of the other ingredients in Pre/o Biotics. [Weber State University, 2018, unpublished data].
