**RECOGNIZE, RESPOND, AND REMEMBER**

4Life Transfer Factor is smart; it issues that all important call to action. But NanoFactor has the intuition to make fine-tuned adjustments, sending out immune cells where and when they are needed, and calling them back all to support the healthy function of the immune system. Both intelligence and intuition are needed to help your immune system function, resulting in a wiser, more fine-tuned immune system, and a more accurate level of immune response.
