

4Life® Transfer Factor Plus® Tri-Factor® Formula

Top immune system support product*

- Educates, enhances, and balances the immune system with the exclusive 4Life Transfer Factor® Blend*
- Bolsters Natural Killer (NK) cell activity in the presence of a health threat and activates other immune system cells†
- Has zinc to help with the production and function of key immune system cells*
- Contains UltraFactor, OvoFactor, and NanoFactor extracts
- Contains certified 4Life Transfer Factor® to Raise Your Immune I.Q.®*

What Is 4Life Transfer Factor Plus Tri-Factor Formula?

Recent independent laboratory studies show that core 4Life Transfer Factor products bolster NK cell activity in the presence of a health threat, while activating a variety of other immune system cells, such as: B cells, T cells, and macrophages.† Representing the most advanced discoveries in 4Life Transfer Factor Science, this product combines the power of 4Life Transfer Factor Blend (UltraFactor, OvoFactor, and NanoFactor extracts) with a proprietary super-mushroom blend to support a healthy immune system and provide a host of other phytonutrient benefits. This product educates immune cells and supports the immune system's ability to more effectively recognize, respond to, and remember potential health threats. This complete formula promotes immune function to help maintain optimal health, energy, and everyday quality of life.*

Key Features

- Supports healthy immune system function that, in turn, promotes healthy energy levels and the healthy function of all other systems throughout the body*
- Contains 4Life Transfer Factor to educate immune system cells and promote the immune system's ability to more effectively recognize, respond to, and remember potential health threats*
- Includes a super-mushroom blend with proprietary ingredients, such as maitake mushrooms, shiitake mushrooms, cordyceps, IP-6 (inositol hexaphosphate), and olive leaf extract to further nourish healthy, innate immune system function*
- Is protected by U.S. patents: 6,468,534 (extraction process for transfer factors from egg sources) and 6,866,868 (combination process of transfer factors from cow colostrum and chicken egg yolk)
- Contains zinc, a trace element, which is important for the production and function of key immune system cells*

Primary Support:

Immune system*
