

# 4LIFE TRANSFER FACTOR® RENUVO™

## 4LIFE TRANSFORM™

4Life Transform represents the potential of a more vibrant, youthful, and balanced life by empowering you through nutritional products and programs designed to help you change your body.

4Life Transfer Factor Renuvo targets healthy aging by supporting a more youthful response to daily life stressors that may push your body out of balance. 4Life Transfer Factor Renuvo is formulated to support:

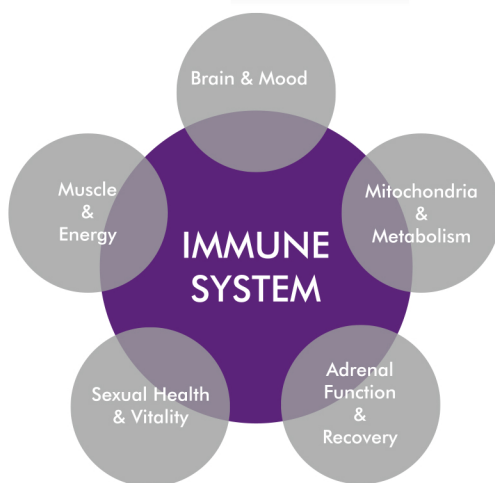

- Total body recovery • Mental acuity
- Sexual vitality • Energy
- Mood • Metabolism

### Stress

Whether it's exercise, work, poor sleeping or eating habits, or just exposure to common environmental stressors like air travel or pollution, your body can be thrown off course and off balance. Whatever your age, the key to slowing the telltale signs of aging and feeling like you're ready to take on the world is improving your body's natural response and recovery to these daily life stressors.

### Decreased Inflammatory Response

A major cause of the aging process is inflammation. Normally, inflammation is a healthy response to infection, trauma, or other stresses on the body. Even the foods you eat or your sleeping habits

can cause inflammation. Inflammation has been linked to advanced aging, fat gain, muscle loss, and even sexual and cognitive decline. The secret to 4Life Transfer Factor Renuvo is its focus on bringing the natural inflammatory response under control and helping increase the body's natural defenses against physiological stress.

### Improved Detoxifying Effect

4Life Transfer Factor Renuvo strengthens the body's antioxidant defenses to fight oxidative stress and rid the body of toxins.

## Decreased Oxidative Damage

Protein carbonyls are widely measured markers of the cellular damage caused by oxidative stress. As we age, protein carbonyl concentrations generally increase. 4Life Transfer Factor Renuvo decreases the unhealthy diet-induced protein carbonyl concentration.

## Reduce Fat Accumulation

4Life Transfer Factor Renuvo also helps in reducing Fat accumulation.

### Key Points

- Provides support for everyone over the age of 18 who wants a more youthful response to the daily stressors of life, such as unhealthy diet, intensive exercise, or mental stress
- Includes adaptogenic herbs like ashwagandha, gokhru & Kutki, plus botanicals such as green tea, red grapes, turmeric and black pepper.
- Offers the patent-protected 4Life® Tri-Factor® Formula, one of the most revolutionary immune system support extracts available
- Provides transfer factors, which support the immune system's natural ability to respond appropriately when challenged with health threats
- Helps increase the body's natural defenses against physiological stress

## Did you know?

TNF-alpha is a key protein of your immune system produced in response to occasional physiological stresses, such as intense exercise, high-fat/high-sugar diet, poor sleep, mental stress, and environmental pollutants. TNF-alpha is released by the immune system to exert protective functions and regeneration. But, when not shut down at the appropriate time, this continued defense response places additional stress on your body systems, causing negative outcomes such as advanced aging, fat gain, muscle loss, and low energy. It's important to keep TNF-alpha under control and create a cellular environment that helps get your body back into balance.

## 4LIFE TRANSFER FACTOR® RENUVO™

### KEY INGREDIENTS:

Withania somnifera (Ashwagandha), Camellia sinensis (Green Tea), Tribulus terrestris, (Puncturevine / Devil's Weed/Gokhru), Picrohiza kuraa(Kutki), Curcuma longa (Turmeric), Vitis vinifera (Red Grape), Piper nigrum (Black Pepper), Go pijush & Egg Yolk.

### AYURVEDIC PROPRIETARY MEDICINE

Net Quantity: 120 Capsules

### PRIMARY BENEFITS

- Healthy Aging
- Antioxidant
- Overall Wellness
- Immune System Support
