

4LIFE AGEPRO™

For Healthy Aging and Vitality

INTRODUCTION

Did you know your age may not be determined by the number of candles on your birthday cake? According to recent scientific research, your immune age may be a better indicator of your true age.

Based on the independent laboratory studies, 4Life Transfer Factor AgePro helps improve your immune age by targeting the main pathways of cellular aging. This product educates and rejuvenates immune cells, helps clear out malfunctioning cells, and boosts NAD+ levels, which is a life-essential enzyme that declines as you age.

Support healthy aging with AgePro!

Your body's potential health threats!

KEY FEATURES

- Boosts indicators of NAD+ with NMN.
- Protects against cellular damage and clears out old or malfunctioning cells with quercetin and apigenin.
- Rejuvenates aging immune cells for a more youthful immune system response with 4Life Transfer Factor.
- Helps the body break down and reuse old cell parts, leading to better-functioning cells, with quercetin and apigenin.
- Supports cellular energy and helps modulate the aging process with alpha-ketoglutarate (AKG)
- Helps the immune system more youthfully recognize, respond to, and remember potential health threats.

HEALTH BENEFITS

- Supports healthy cellular aging.
- Improves physical endurance and performance.
- Provides potent antioxidant support.
- Helps increase NAD+ levels (a life-essential enzyme) in the blood that decline as you age.
- Supports a more youthful immune system response.

PRIMARY SUPPORT

- Healthy Aging
- Immune System
