

4Life Transfer Factor Collagen Type I

Flavorless collagen powder you can add to any beverage

Collagen is the “glue” that holds your body together, and there are different types of collagen in your body. Type I Collagen is the most abundant, and supports your skin, hair, nails, joints, muscles, and more!

Take 4Life Transfer Factor Collagen Type I to support healthy hair, skin, nails, and muscles. Plus, marine collagen is highly bioavailable and a premium source for skin health and beauty.*
