## 4Life Transfer Factor Collagen

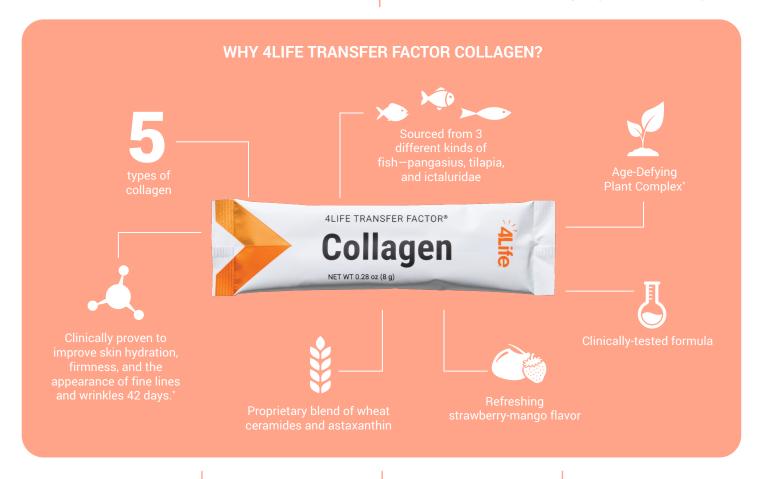

## WHAT IS COLLAGEN?

- · Vital structural protein in the human body
- · "Glue" that holds your body together
- Present in connective tissue throughout your body, including the skin

## **TARGET YOUR BODY'S NEEDS:**

- · Improves skin moisture and elasticity\*
- · Supports healthy joints and muscles\*
- · Promotes overall longevity\*
- · Provides a dermatologist-tested formula\*
- · Supports the immune system\*
- Stimulates collagen synthesis in the body\*

The collagen market is projected to reach

\$6.63 BILLION by 2025.1 30%

of your body's protein is collagen.<sup>2</sup>

Collagen production

declines throughout adult life.3

The word collagen is derived from the Greek word

KÓLLA meaning glue.
