

4LIFE TRANSFER FACTOR® PLUS™ TRI-FACTOR®

For stronger immune system support

Legendary Tri-Factor Formula with the goodness of
Immune System Support

The Ultimate in Immune System Support

Inside your body there is an amazing protection mechanism called the immune system. It is designed to defend you against outside invaders that can compromise your health. Knowing this, it's easy to see why maintaining a healthy immune system is so critical. Understanding the function of the immune system helps us appreciate the value in maintaining its healthy function.

This product represents 4Life's highest level of immune system support. 4Life Transfer Factor Plus Tri-Factor Formula combines 4Life Transfer Factor®, NanoFactor™ extract, and the added support of other key ingredient blend to provide the ultimate in immune system support for your body. The blend features known immune-supporting ingredients such as maitake and shiitake mushrooms, inositol hexaphosphate, soya bean, etc.

4Life Transfer Factor Plus Tri-Factor Formula delivers powerful support to help you achieve a strong and healthy immune system that knows exactly what to do, when to do it, and how to get it done quickly. Scientific studies report 4Life Transfer Factor Plus Tri-Factor Formula can boost NK cell responsiveness by 437% above normal immune system response*.

PRIMARY BENEFITS

- Provides a superpower of immune system support
- Includes added immune system nutrients for a broad source of immune system support
- Promotes the health of all your body's systems
- Offers a proactive strategy to maintain your health

Key Points

- **4Life Transfer Factor®**: Transfer factors are molecules found within the bodies of all mammals and birds. Transfer factors promote the immune system's ability to recognize, respond to, and remember invaders seeking to threaten health. Through a patented process exclusive to 4Life, Transfer Factors from cow colostrum and chicken egg yolk are combined to produce synergistic immune system support.
- **NanoFactor™ extract**: Nanofractions are low-weight molecules found in the immune systems of certain mammals and birds. NanoFactor helps regulate immune

cell reaction by supporting communication between cells, promoting stability and balance within the immune system, and prompting your body's natural ability to stay on a healthy course. 4Life Transfer Factor Tri-Factor Formula brings together 4Life Transfer Factor and the intuition of NanoFactor, to more effectively recognize, respond to, and remember potential health threats.

- **Immune System Support:** The other key ingredients in 4Life Transfer Factor Plus Tri Factor formula support the innate immune system, your first and instinctive response when your body is threatened. This blend contains known immune system nutrients, including: maitake and shiitake mushrooms, inositol hexaphosphate, soya bean extract, etc.
- **Scientifically Studied:** 4Life Transfer Factor Plus Tri-Factor Formula was developed by 4Life researchers and scientists in an effort to maximize immune system support. Results of an independent study conducted at the Russian Academy of Medical Science conclusively showed that 4Life Transfer Factor Plus Tri-Factor Formula propelled Natural Killer (NK) cell activity to a remarkable 437% above normal immune system response.* (See Page 5)

4LIFE TRANSFER FACTOR® PLUS™ TRI-FACTOR® FORMULA

KEY INGREDIENTS:

Aloe Vera, Baker's Yeast, Inositol, Limon Peel, Maitake Mushroom, Oat Seed, Shiitake Mushroom, Oat Seed, Soya Bean, Zinc, Milk Solids & Egg Yolk.

HEALTH SUPPLEMENT:

Net Quantity: 90 Capsules

- 4Life Transfer Factor products have been featured in the Physicians' Desk Reference For Nonprescription Drugs and Dietary Supplements since 2003. PDR is the standard supplement guide for physicians that can be found in physician offices, hospitals, and pharmacies throughout the United States.
- 4Life Transfer Factor products have been recommended by the Russian Federation for use in hospitals and clinics. This historic announcement was a result of ten separate scientific trials and two experimental studies extolling the benefits of 4Life Transfer Factor products.

* Test results obtained from an independent NK cell study conducted by Dr. Anatoli Vorobiev, head of Immunology, of the Russian Academy of Medical Science. The blind study tested Transfer Factor E-XF™ (the primary ingredient in 4Life Transfer Factor® Tri-Factor® Formula).
