RENUVO™

Feel 22™ with 4LIFE TRANSFER FACTOR RENUVO™

4Life Transfer Factor Renuvo targets healthy aging by supporting a more youthful response to daily life stressors that may push your body out of balance. 4Life Transfer Factor Renuvo is formulated to support:

- Total body recovery
- Mental acuity
- Sexual vitality
- Energy
- Mood
- Metabolism

// Patent-pending 4Life Transfer Factor Renuvo is an adaptogen. Formulated as a foundational product for everyone, it should be consumed daily to help target healthy aging. As you age, there are certain body systems and functions that are more affected than others, including brain function and mood, cellular energy and metabolism, muscle support and strength, adrenal function and recovery, and sexual health and vitality. //

CHRIS LOCKWOOD, PHD, CSCS
4Life Chief Scientific Officer

INFLAMMATION

A major cause of the aging process is inflammation. Normally, inflammation is a healthy response to infection, trauma, or other stresses on the body. Even the foods you eat or your sleeping habits can cause inflammation. Inflammation has been linked to advanced aging, fat gain, muscle loss, and even sexual and cognitive decline. The secret to 4Life Transfer Factor Renuvo™ is its focus on bringing the natural inflammatory response under control and helping increase the body's natural defenses against physiological stress.

STRESS

Whether it's exercise, work, poor sleeping or eating habits, or just exposure to common environmental stressors like air travel or pollution, your body can be thrown off course and off balance. Whatever your age, the key to slowing the telltale signs of aging and feeling like you're ready to take on the world is improving your body's natural response and recovery to these daily life stressors.

"4Life Transfer Factor Renuvo is a high-impact product. After a few days of taking it, I could actually feel it working! Now, I recover much faster. I really feel like I'm 22 again!"
