

How To Do Business in Russia and Customs Union Countries

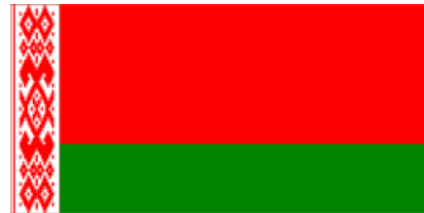

1. New distributors and customers from Russia, Belarus, Kazakhstan, and Kyrgyzstan need to enroll over the internet at russia.4life.com, belarus.4life.com, kazakhstan.4life.com, kyrgyzstan.4life.com, depending on the country of their residence.

New distributors need to print out and sign hard copy of Distributor Application and Agreement and Consent to the Personal Data Processing. These documents, along with a copy of distributor passport, need to be taken to the Regional Center that was selected during enrollment.

Regional Center will scan new distributor documents and email them to 4Life corporate office. Regional Center collects hard copies and transfers them to 4Life to store. Upon receipt of all required paperwork, 4Life corporate office activates distributor account.

New customer does not need to sign any agreements or provide paperwork. He/she can order from Regional Center immediately after enrollment.

2. Products can be purchased only at Regional Centers. There is no Internet ordering in Russia or Customs Union countries. Products sold at Regional Centers are registered and meet quality control standards.
3. Be aware that product prices may vary among RC locations.

4. Bonuses are calculated according to 4Life Life Rewards Plan. Bonus payments can be paid via bank wire or transferred to RC location for use as credit towards payment for 4Life products.
