CHOOSE MOLECULE SIZE OVER SCOOP SIZE.

PRO-TF is powered by small, low molecular weight, high-DH proteins in an exclusive, patented, and university-tested blend.

Larger molecule = inferior absorption

- increased digestive stress
- less effective protein

Smaller molecule = superior absorption

- decreased digestive stress
- more effective protein overall

You have a lot of options when it comes to protein supplementation.

However, when you look at the data, the choice becomes crystal clear.

PRO-TF® wins every time!
